Dental Syringes

1.8ml DENTSPLY Syringe

- Manual Aspirating Syringe (1.8ml) 250218
  - twin tip piston
  - end loading
  - ring thumbgrip
  - compatible with 1.8ml self aspirating cartridges only
  - permits manual aspiration only

2.2ml DENTSPLY Syringes

- Manual Aspirating Syringe (2.2ml) 2502
  - twin tip piston
  - end loading
  - ring thumbgrip
  - compatible with 2.2ml self aspirating cartridges
  - compatible with 1.8ml self aspirating cartridges when combined with adaptor
  - permits manual aspiration only

2.2ml Ronvig Syringe

- Ronvig Aspiject Auto Aspirating Syringe (2.2ml) 2027
  - self aspirating without pull back
  - minimised tip movement
  - unobstructed view of the cartridge
  - surface of the syringe has a matt finish that does not reflect light
  - unique thumbgrip giving a comfortable ergonomic shape
  - well balanced, light weight (50g) but solid construction
  - high grade acid and heat resistant stainless steel

2.2ml Ash® Syringes

- Sterling IMP Barbed Syringe (2.2ml) 62413105
  - barbed tipped piston (a.k.a. harpoon or Christmas tree)
  - end loading
  - ring thumbgrip
  - compatible with self aspirating cartridges
  - permits manual aspiration only

- Sterling Cartridge Syringe (2.2ml) 62415005
  - flat tipped piston
  - end loading
  - curved thumbgrip
  - compatible with standard and self aspirating cartridges
  - DOES NOT permit aspiration
Anaesthetics

Accessories

Accuject Sterile Disposable Dental Needles
Our clear and pre-threaded hub allows for the needle to fit precisely onto the syringe. And the needle locks in, so you never have to worry about the bevel being out of place.

Accuject Needles
- Box of 100
- 25G Short 900505
- 25G Long 900605
- 27G Short 900705
- 27G Long 900805
- 30G Short 900905
- 30G X-Short 901005

Crescent® Mouth Props
Stainless steel insert to prevent jaw closure during anaesthesia. Soft covering of Nordel®-based material can withstand repeated autoclaving and will not become sticky or deteriorate with heavy use.

Mouth Props
- 5 sizes pack of 2
  - 1. Edentulous C271009
  - 2. Large Adult C271008
  - 3. Adult C271440
  - 4. Child C271220
  - 5. Paedo (no insert) C271007

Ash® Jenker Anti Needle-Stick Device
The Ash Jenker is the ideal way to prevent needle stick injuries. Simply place upturned needleguard in the Jenker and resheathing becomes a simple one-handed procedure. The Jenker is stable enough to hold the complete syringe up-right, thus preventing it from rolling loose on the worktop. Autoclavable or can be sterilised by dry heat if desired.

Ash Jenker Anti Needle-Stick Device 1 Unit 62499005
(Lignocaine 25 mg/g and Prilocaine 25 mg/g)
Periodontal gel
